

Migrate Your Applications To The Oracle Cloud Workshop (IaaS, DBaaS, Ravello)

Description:

Oracle customers and partners are seeing tremendous benefits by moving to the Oracle Cloud. The Oracle Cloud provides partners expanded business opportunities, an enterprise class cloud deployment environment with the ability to manage resources in an elastic fashion, and flexible subscription pricing. If you want to learn the end-to-end technical steps involved in moving your application easily to the Oracle Cloud then join us for the application migration workshop. In this 2-day course, taught by Oracle Product Development staff, participants get practical, process driven lab exercises on how to plan, provision, test, and move their application to the Oracle Cloud.

Audience: ISVs, Resellers, System Integrators

Participant System Requirements: Participants bring their Windows or Mac laptops with 8GB memory and 35GB free hard disk space.

Agenda:
